Early Bird Prizes are a way to connect different volunteer groups with the businesses across Kitchener Neighbourhoods.

Volunteers organize activities and events with and for each other that are focusing on a physical area they would call their neighbourhood, they invite everyone in that area and make sure people get to know each other and participate in face to face activities.

The eligible activities that register before the four deadlines during a year are a part of a random draw and the winner would receive services, products and contributions useful when they organize their next activity!

Early Bird Deadlines are

January 31

March 31

June 30

August 31

The sponsorships have included one hour swim time in City swimming pools, one hour free skating time, one hour of bouncy castle, toy and sport equipment donations, gift cards for local purchases, etc.
