TO BE MORE INCLUSIVE...

This activity was advertised in many ways - invitations through the school, school website and social media, posters, word of mouth
This activity was held in the fully accessible school.
This activity drew in high school students, parents, community members, vendors, businesses, firefighters, police, and many more with their time, donations, and willingness to help out wherever they could.
This activity was free.

SUCCESS!

"We had approximately double the number of people this year which was great. We hope to continue to grow this event in the future"

"By opening our school to the community, we feel that we make it a better place to live. We also feel like holding the event in February, near the end of Winter, gives families an opportunity to enjoy a community event during a time when most are staying inside to be warm!"
